

Mohamed Sameh Mohamed

AI Engineering Student | Python Developer | Freelance Software Developer

Kafr El-Sheikh, Egypt | +20 101 091 2916 | mohamedsamehabdo04@gmail.com | [GitHub](#) | [Linkedin](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated Artificial Intelligence Engineering student at Delta University for Science and Technology with strong expertise in Python, Machine Learning, Full-Stack Web Development, Computer Vision, and IoT systems. Experienced in developing AI-powered applications, assistive technologies, and smart solutions. Completed intensive digital freelancing training with ITIDA, gaining practical experience in project delivery, client communication, and remote collaboration. Strong problem-solving, analytical thinking, and self-learning skills, with a passion for building innovative technology solutions.

PROFESSIONAL EXPERIENCE

Digital Freelancing Trainee | Information Technology Industry Development Agency (ITIDA) – Gigs Program

May 2026 – August 2026

Job Responsibilities:

- Completed a comprehensive 3-month intensive training program focused on digital freelancing, project delivery, and remote collaboration.
- Gained hands-on experience in managing the complete project lifecycle, from client requirement gathering to final software and web solution deployment.
- Developed strong skills in professional profiling, bidding strategies, and freelance business management across major platforms.
- Applied technical skills in real project environments and remote teamwork.
- Strengthened professional communication and client handling abilities.

PROJECTS

Full-Stack Web Development | [Project](#)

- Celia Premium Sweets – B2B Wholesale Ordering Platform
- Technologies: React, Next.js, Node.js, Tailwind CSS, Firebase, REST APIs
- Developed a comprehensive B2B e-commerce and wholesale ordering web platform designed to streamline bulk purchasing and business transactions.
- Engineered a responsive, high-performance UI/UX featuring an interactive product catalog and robust cart management system.
- Implemented an innovative QR Code Ordering feature to fast-track and simplify the ordering process for commercial clients.
- Built a secure Admin Dashboard for real-time order tracking, product management, and inventory control.
- Holiday Horizon Web Application
- Technologies: React, Vite, Firebase, Tailwind CSS
- Developed a travel planning and booking platform for flights, hotels, and tours with Firebase backend integration and responsive UI/UX.

AI, Computer Vision & Assistive Technology

- Smart Glasses for the Blind: Developed an assistive smart glasses system using computer vision and sensors to identify objects and describe the surrounding environment for visually impaired users.
- Adaptive Gesture Interface: Built an interactive desktop application for remote computer control using face tracking, eye movement detection, and hand gesture recognition.

IoT & Embedded Systems

- Smart Plant IoT System: Designed an intelligent agriculture solution for remote environmental monitoring and automated irrigation.
- Neck Angle Measurement Project: Developed a healthcare system using ESP32 and MPU6050 sensors to measure neck angles during physical therapy sessions with real-time monitoring.

Python Applications

- Twenty-One Game: Designed and programmed an interactive card game in Python (published on GitHub).
- Arab World Map Quiz & Human Body Parts Games: Created educational geography and anatomy games using Python (Turtle & Pandas).

Additional Python Projects

- Library Management System
- Encryption & Decryption Tool
- Worker Wage Calculator

- Puzzle Island Game
 - Password Generator
 - Interactive Doll Game
 - Currency Converter
 - YouTube Channel Name Generator
 - Blackjack Game
 - Snake Game
 - Ping Pong Game
 - Turtle Race Game
 - Map Selection Game
-

EDUCATION

Bachelor's Degree in Artificial Intelligence Engineering

- Delta University for Science and Technology | Present
-

TECHNICAL SKILLS

- Python
 - Java
 - Machine Learning
 - Artificial Intelligence
 - Computer Vision
 - Full-Stack Web Development
 - IoT Integration
 - Firebase
 - Git & GitHub
 - PyCharm
 - VS Code
 - Microsoft Office (ICDL)
-

PERSONAL SKILLS

- Problem Solving
 - Analytical Thinking
 - Self-Learning
 - Teamwork
 - Adaptability
 - Time Management
 - Creativity
 - Attention to Detail
-

LANGUAGES

- Arabic: Native
 - English: Good
-

PERSONAL INFORMATION

- Date of Birth: 12 June 2005
- Nationality: Egyptian
